

3rd party party

Edge Conference, NYC 2013

Peeps

- [@bbinto](#)
- [@bentlegen](#)
- [@guypod](#)
- [@stoyanstefanov](#)
- [@TheOpsMgr](#)

Third party content

- script
- iframe
- both

Any problems?

Nah. Well, except security, spof,
perf...

Script include

- Current: `script` tag, `async` `script`
- Crazy: `fif`, force refresh
- Coming up: `w3c web-perf`

Common 3rd Party Objects

<https://github.com/stoyan/c3po>

Nearer future

- Web components
- `<iframe sandbox>`
- `<iframe seamless>`...
- `<iframe srcdoc?>`

CSP

Meanwhile on planet Earth

- "BombarDED by scripts"
- monitoring, budgets
- document.writers
- # domains

Mobile

Let's talk!
